Recruitment

OPERA is seeking outstanding candidates for a postdoc position.

Ph.D. in Geophysics, Physics or Applied Mathematics is required.

The successful candidate will conduct independent research and, in collaboration with our team members, on depth migration (both Kirchhoff and wave equation), signal enhancement, diffraction imaging, data compression.

Besides the required skills, applicants must have a good knowledge in computers and HPC, and a good level of English.

OPERA is sponsored by TotalEnergies and managed by ADERA.

Our offices are located at the University of Pau (South-West of France) in the foothills of the Pyrenees and one hour drive from the Atlantic coast.

Please send your motivation letter and CV at reda.baina@univ-pau.fr
